Pets

Pets

I think every boy and girl should have a pet.

You don't have to have a big pet, like a horse or an elephant.

They could cost a lot of money to feed.

You can have small pets that don't eat much, like mice, fish or birds.

Or you could have a pet like a sheep.

They just eat grass and grass is free.

And, if you had a sheep, you wouldn't even have to cut the lawn!

A chicken is a good pet, too, and it could eat your leftover food scraps.

When boys and girls have a pet, they have to look after it.

It is good for children to learn to look after their pets.

They have to remember to give them food and water and not just go off and play.

Pets teach children to be kind and gentle.

Pets can be very friendly and loving if you are kind to them.

Pets can be your friends and it is good to have lots of friends.

I'm sure you will agree that everyone should have a pet.

With your class

Talk about pets.

- What pets do you have?
- What are some things pets do?
- What pet would you most like to have?
- Why is this pet so special?
- How do you look after pets?
- Why is it important to look after pets?
- Do you think that all children should have pets?

Draw the pet you would most like to have.

With a partner

Tell your partner about the pet in your picture.

Listen to your partner tell you about the pet in his or her picture.
