### Class Crazy Golf Course

#### TASK:

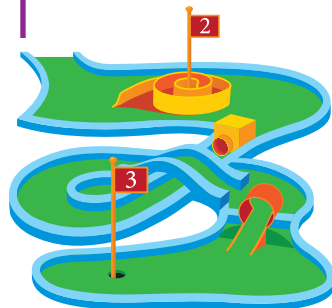

Design and make a crazy golf course to add to a class crazy golf course for everyone to play.

#### CRITERIA:

- The crazy golf course must have obstacles that the ball must be hit carefully around using different strengths of pushes.
- The crazy golf course must be at least 20 foot spans long and five foot spans wide. It must have a barrier around the edge of the whole course.

#### SUGGESTED MATERIALS:

- recycled materials
- a golf ball
- paint
- toy golf putter

### Class Crazy Golf Course

- Find out about different crazy golf courses and the types of obstacles they use to make it harder to complete.
- Plan and draw a diagram of your golf course. Label the obstacles and the materials you will use to make each part.
- Collect the materials you will need, including recycled materials, a golf ball and paint.
- Create your crazy golf course to look like your plan.
- Check that your crazy golf course meets the criteria.
- Bring your golf courses together to create a class crazy golf course. Hold a competition to decide who is 'master of the course'.
